Re: Revegetation Requirements, Star Stone Quarries, Inc., Santa Barbara Quarry, S/013/006, Duchesne County, Utah

Dear Mr. Kunzler:

The above-referenced quarry that Paul Baker inspected on April 4, 2002 had been reseeded. He went to the site too early in the spring. It wasn't warm enough yet for anything to grow.

There were individual grass spears growing in several locations, at the time I went out on April 20 to reseed it again. Attached is a receipt from Granite Seed Company for the seed I bought and spread. I then mixed it into the soil with a drag behind a motorcycle. As you can see, the amount seeded is triple what is required. Before your next inspection please allow enough time for the grass to sufficiently sprout and grow. Thank you; please call me at 801-262-4300 if you have any questions.

Sincerely,

Lon Thomas  
President  
Star Stone
